The 2004- 2005 school year was full of excitement. Everything from the new dull classes, such as advisory, to the hot new events, such as the bonfire after the pep rally homecoming week. Students enjoyed themselves hanging out with friends before school, at school, and after school.

Every night there seemed to be some gathering of students. Students got together for club meetings, sports practices or games, play practice or performances, or just to hang out. Each group of friends had a place they liked to go. Almost every Friday either Lancer Stadium or the PIT was packed with fans cheering on their fellow Lancers. The roar of the crowd was a common sound coming from the stands.

This year, the school made some major changes. Seniors finally got open campus, and students were finally rewarded for taking hard classes with weighted grades. Also new this year, everyone took the dreaded semesters. Students also probably noticed the lack of auds. The administration thought it would be cool to reduce the number of auds in order to increase the amount of class time.

We, the staff of the yearbook, hope that we have combined the efforts of many students to preserve the memories from this year. We tried to include the major events, successes, changes, and happenings of the 2004- 2005 school year.

HOT ROD

Editor's Note

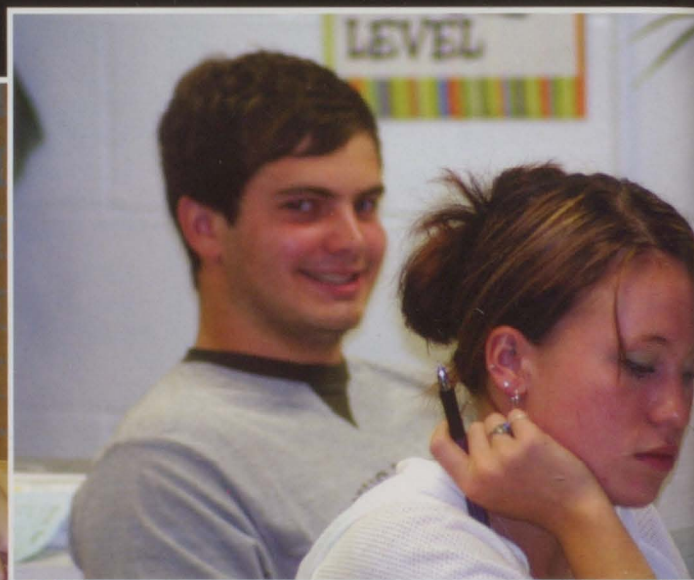

After four long, but sort years, we are almost done! This year has by far been the most exciting for most. Everything from voting for our own classmates for homecoming court to finally getting to have open campus. The class of 2005 became closer as the year went on. We supported each other in everything we did. Now the big choice comes- where to go to college, and what to major in or at least what to do next year. Every senior has had to ponder the these questions. What ever the answers are to these questions, we have worked hard and are ready for the future.

Editor's Note

As you grow older you get more privileges. For most athletes, they are participating on a varsity team and for most thespians they have had more important rolls. For everyone else their lives have become much busier in whatever they do to fill their time. There is more homework and a ton more expectations. The class of '06 is getting close to becoming seniors and that's all that many think of. Now the all important questions of where to go and what to wear for the all important day.

SOPHOMORES YM

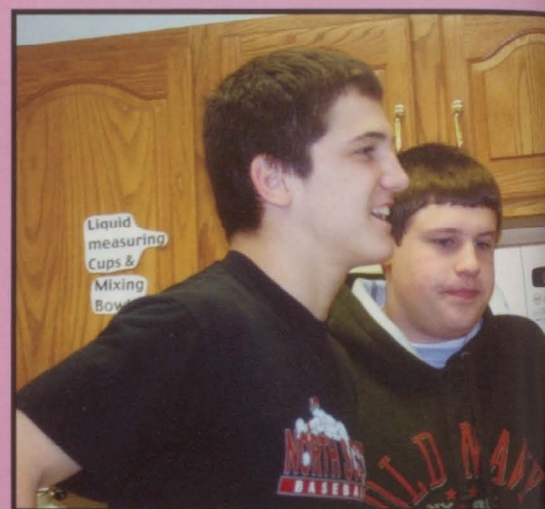

Jamie Coda and Emily Hayungs are distracted by a peer.

Staff Note

The worries about being trashed, canned and shoved in a locker are gone. Many sophomores should now be concentrating on their homework. With every year that passes, expectations are higher. The athletes are working hard to match the upperclassmen standards and the performing artists are working to receive leading roles. Even though sophomores are having a great time making memories with team mates and friends next year we are upperclassmen!!

FRESHMEN HIGHLIGHTS

Editor's Note

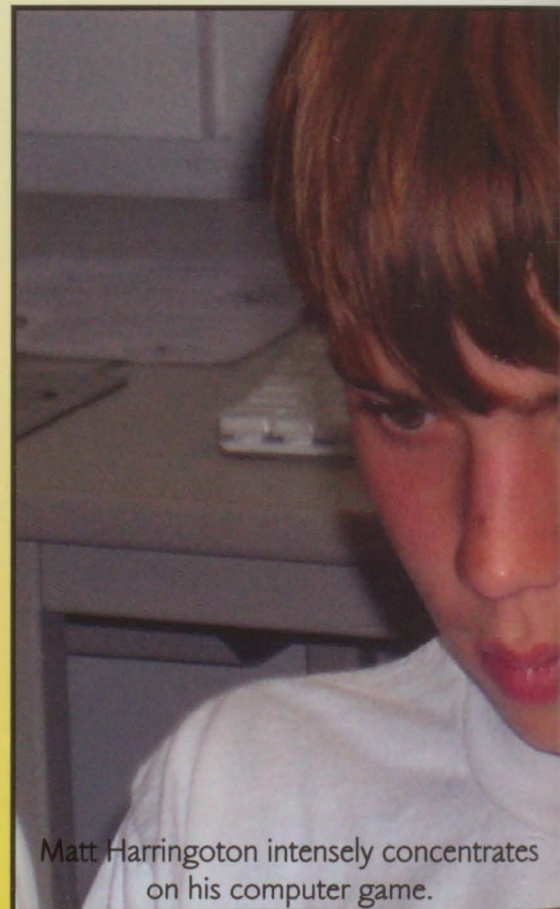

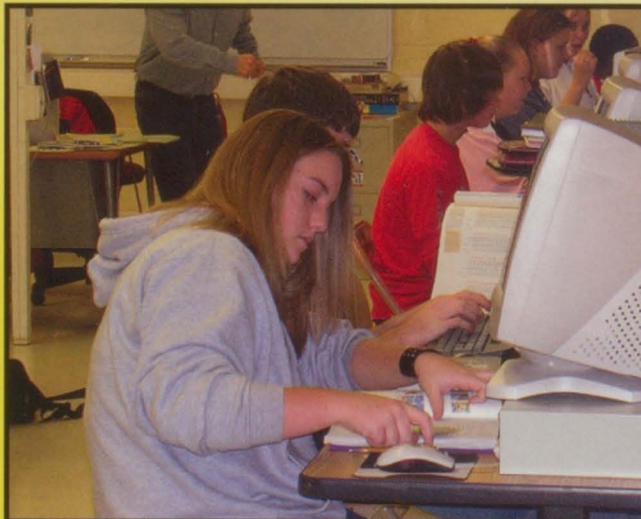

With a new year and a new school, big events are happening and big changes are taking place. Now competing in the MAC and working to make a better team athletics have taken a big turn from what they were. As for thespians...competing for roles in plays and working hard, taking upperclassmen advice to improve. Everything that happens freshmen year is an experience. This is your first year to cheer in the student section at sporting events and you now get to have fries with lunch every day if you want. Decisions are everywhere and every decision you make this year effects what happens in the next three.

FACULTY AARP

Ms. Keck works
diligently to finish
The Lance for
Aaron Schroeder.

Editor's Note

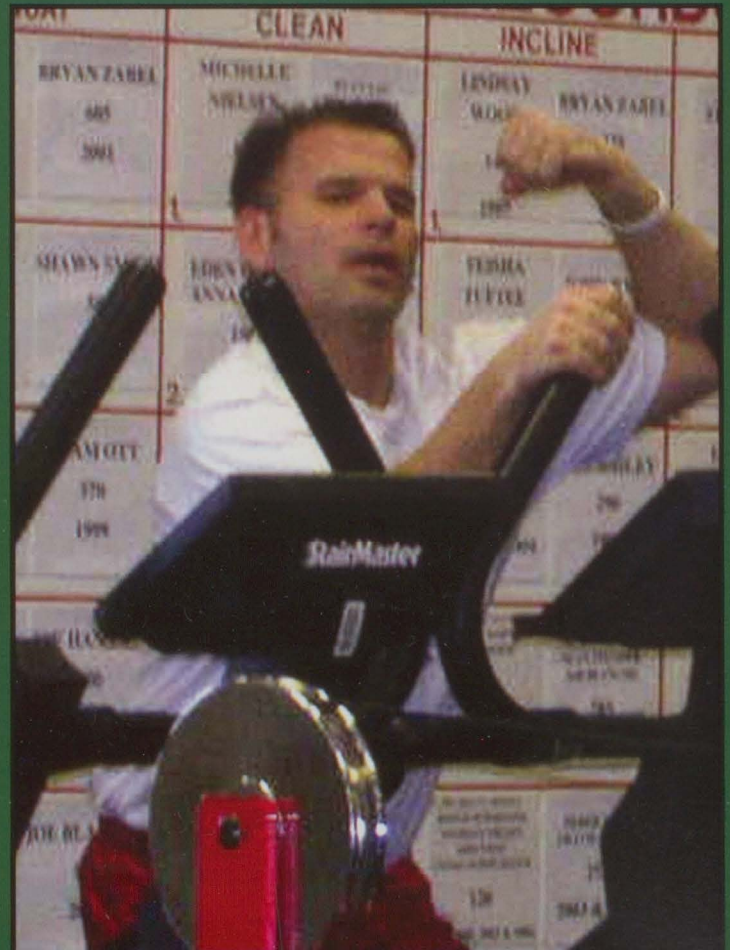

Where would we be without our teachers? With a few new teachers that had to get used to North Scott ways the faculty worked hard to make sure every student got the best education possible. The staff was supportive of every activity the students participated in. They challenged the students to work hard and pushed to make everyone better. Some teachers were crazy in class and others were crazy outside of school. No matter what, the teachers made the school day fun and always interesting to say the least.

STUDENT LIFE

TEEN PEOPLE

Staff Note

The people, the styles, and the dances these are the unforgettable things about high school. Whether you are a freshman who came into high school and was late to every class that first week because you couldn't find your way around this huge "maze" that we call North Scott, or you are a senior who has mastered the hallways and the excuses needed to survive here. We all want to remember the stupid and embarrassing things we wore, did, and said, and also the good times we enjoyed with our friends and peers. High school is your chance to go to a dance with your "major crush," start a new trend, or do the things that you have always wanted to do. It is your chance to take risks and make mistakes. Live these four years of high school to the fullest, these will be the best years of your life.

Cori Thompson '05

"Seeing all of your friends."

Kayla Puls '08

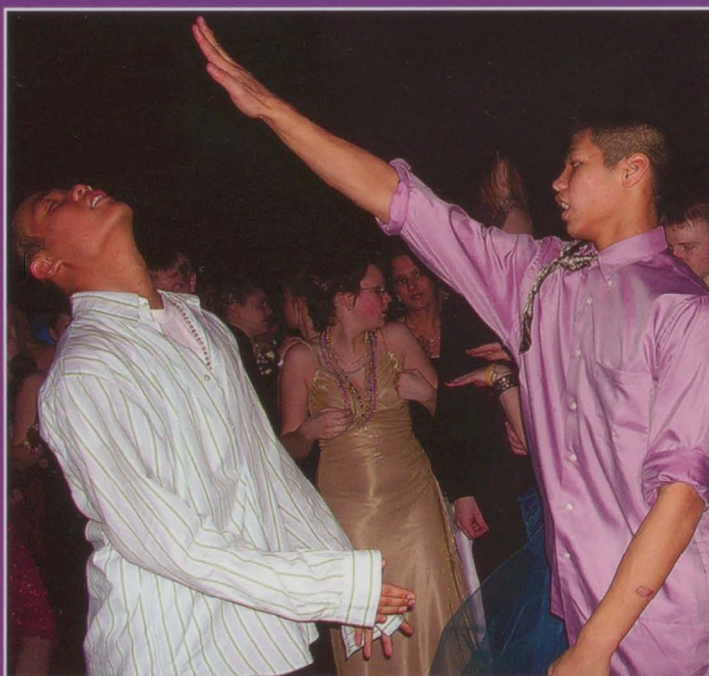

Mike Schrader whispers a sweet something in Brianna Dalton's ear.

Shawn Gerard and Sara Krogman demonstrate a backwards hug.

After Blair Perran won the dance off he makes Jason DeSchepper cry out in defeat.

Erik Johnson is proof that real men wear purple...not pink.

Cole Gerard works his magic on Mallory Dose.

Brooke Lensch asks us if there is anything in her teeth.

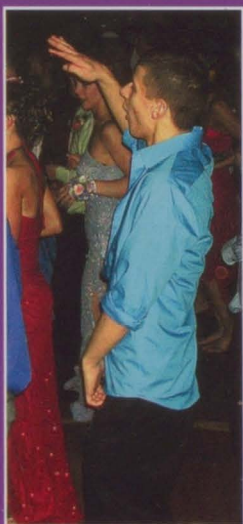

Ben Brabant sports the popular mohawk.

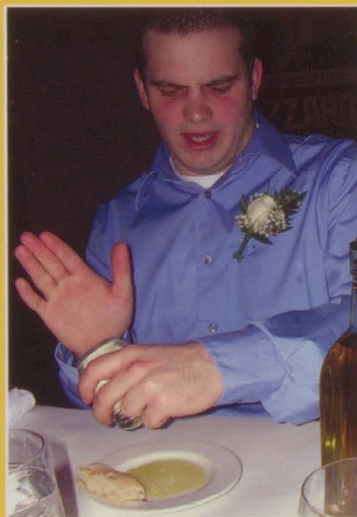

This year Bachelor Capture was a bit different. There was an actual theme for the whole dance. The theme was Mardi Gras. While beads and necklaces were permitted actions done to get the beads and necklaces were not. The theme song was Celebrate and the colors were yellow, purple, green, and blue. The gift was a unique glass jar. Mark's Place took the pictures and there were plenty of cookies and punch as usual.

"Celebrate"

Blake Dossett gives a shout out to all his "homies."

What is Andy Ranfeld spanking? Cause that sure doesn't look like his date.

Jeff Curran and Kristy Schroeder have one last BC laugh.

HOMECOMING

2004

A Quick Homecoming Week Overview

This year's homecoming game was on September 24 against Davenport West. The week was full of fun activities and exciting moments. Monday was as usual piñata day and the homecoming court was announced at the aud. The week continued and students dressed crazy all week. Tuesday was hilly day, Wednesday was twin day, Thursday was battle of the classes and Friday was the usual scarlet and silver day. Battle of the Classes was when each class was assigned a color and everyone was supposed to wear that color. The seniors wore blue, the juniors wore white, the sophomores wore pink and the freshmen wore black. The parade was Thursday night and following the parade the king and queen were crowned. Levi Sarver became king and Courtney Fennel was crowned queen. Following the pep rally most of the school went to a huge bonfire hosted by the Keppy family. The Keppy family allowed students to invade their farm for a root-beer keg, hay rack rides, and of course, a bonfire. After the huge win Friday night the week ended with the dance on Saturday.

Above students scream during the pep-rally while at the right students show their spirit by dressing up and cheering at the game.

We've Got Spirit
Yes We Do!

We've Got Spirit

Foreign exchange students

After the month she spent in New York last summer, Simona decided to do an exchange year in the USA. She doesn't regret her decision. She says it is the best thing she could have ever done. Her awesome host family makes her life very comfortable here and they give her the feeling that she is part of the family. School in her point of view is really different, but she prefers the way they teach here. She would like to move one day from little Switzerland to big USA...maybe to Eldridge ;)

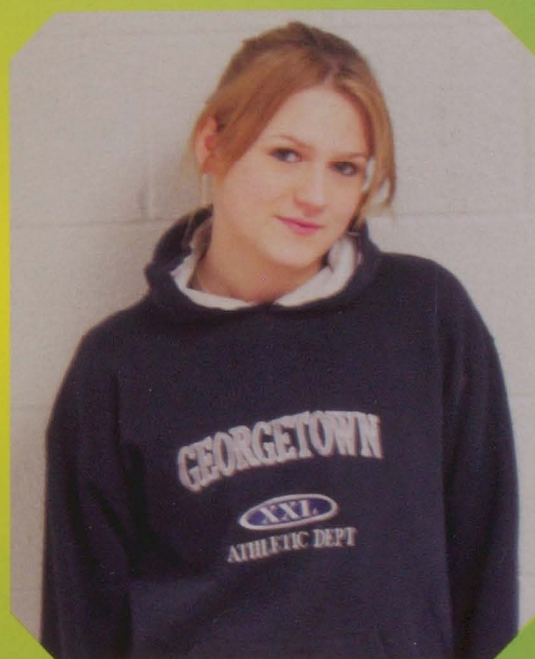

Vincent wanted to do an exchange year in the United States because he wanted to discover the cultures and experience different lifestyles. One thing he noticed was the variety between states from Miami, Florida his first semester to Eldridge, Iowa during his second semester. He hoped that it would be a little more lively, but he has nothing against Iowa. One of his favorite foods here is meat barbequed on the grill.

Vincent likes North Scott because it is totally different than in Paris. "The people here are very nice and the girls are pretty. It's a good school."

Flo likes so many things about the United States, such as the movies, music, the NBA, NFL and especially the language. He also likes all the things you can do in high school like school sports or strength training as a class. Sometimes he misses having a fresh beer to relax but there's nothing he can do about it :) He would really like to keep contact with his family and the friends he made. His biggest experiences were his trips to a Dallas Mavericks Game, Chicago and New York. He is also so happy about his wonderful host family, they are just the best!

Diana feels responsible for herself and sometimes alone in this different country, but America is awesome! She enjoys watching all the school sports like volleyball, basketball and football. She personally likes to play soccer and wants to be in the girls-varsity team in the spring. Her favorite food is tacos, she likes them so much. She is also happy that she has already made so many friends. She never thought that her exchange year would be so exciting and as awesome as it is.

Petra says that she is so glad to be here. She likes to be involved in school activities and sports as well. She likes to cheer at the football and basketball games to support the Lancers. Her biggest experiences were going to Washington DC, New York and Hawaii with other exchange students. She also likes all her classes like American History and English II. Petra says it is a nice experience to go to school and live in a different country. She also says that she found the best family she could have ever gotten, she is very thankful for everything they have done for her. Eldridge became her second home.

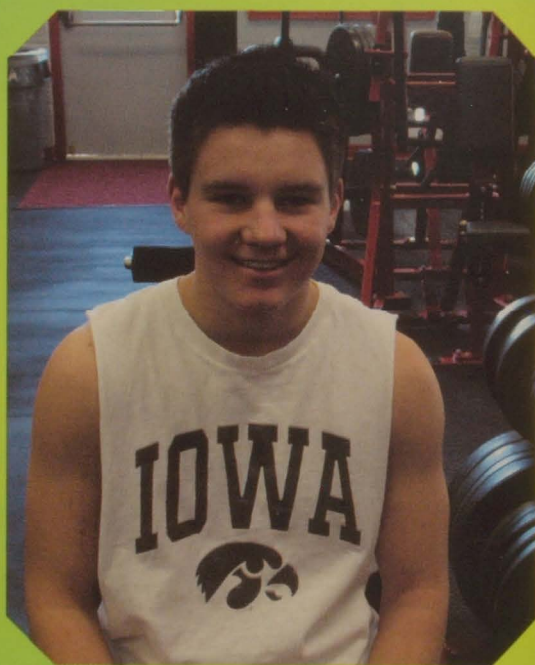

Katarzyna, always just called Kasia, is really impressed by America. She likes spending time in the fitness-center and wants to be on the girls soccer team in the spring. Her favorite classes are Spanish, American and World History. Her best experience has been getting to know the American culture and being a part of it. She is thankful to her host family and very glad to live with them the whole school-year. She says they make her life as comfortable as they can. Teachers, friends and of course her family will stay in her memory for forever.

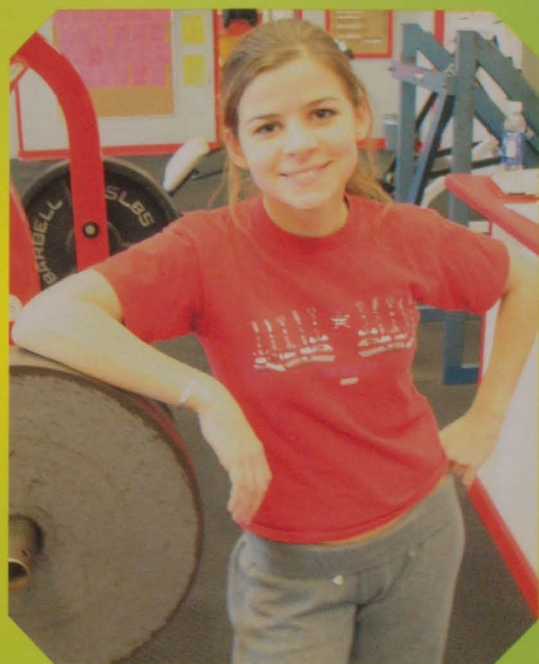

Alex is really impressed of America and especially of North Scott and its students who became his friends so fast. His favorite food is taco pizza from Happy Joe's. His host-family gives him so much that he is hardly homesick and feels so at home here. He really likes to play basketball here and enjoys the varsity games in the PIT with all his friends. "Those times are the moments when you feel the school spirit", he says. There are a lot of things that had an influence on him but his biggest experiences were his trip to New York and going to see the Iowa Hawkeyes.

When Rodrigo came to North Scott the first thing he noticed was the small size of Eldridge. But after a while this little town changed into his home. His favorite classes are PE, Chemistry and Geometry. The best American foods in his opinion are hamburgers and cookies. He also likes sports. He is in Wrestling and Soccer and sometimes plays tennis. The funniest thing that happened to him was the time he almost got lost in Chicago. This exchange year has been a big impact in his life, it is a big experience for him to be so far away from his family and friends, but he loves to learn so much about this new culture.

Everything was a surprise for Isabelle when she came here. Things like the different culture, the way people think and act etc. Her favorite food here is ice-cream and Alfredo pasta from Lancers Grill. In school she likes PE and physics. In her free time she likes going out with friends, watching TV and movies, reading, internet, spending money and sleeping. She also likes to play soccer and she tries to play for the school team as best as she can. She really likes Eldridge and North Scott and is thankful for the big experience she has had here...

Josefina, from Argentina, is already the second girl from her family who is staying in Eldridge for a school year (Cecilia Diez, class of 2001). Her first impression is that the people here are more friendly than expected. Her favorite classes are Study Hall, Marketing and Spanish with Mr. Hawley. Her favorite food is the pork from the farm of her host-family. She really likes playing tennis and being involved with the school team. The biggest impact so far for her was to live on a farm.

Josefina couldn't have asked for a better host family, they are the best in the world.

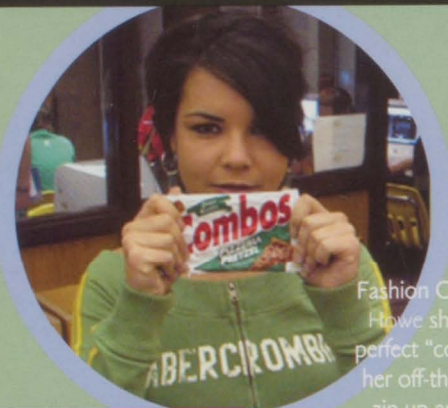

Diego is the youngest of all the 10 exchange students this year at North Scott, he is really proud that he has done this year although he is 15 years old. He thinks that it is really cool in Eldridge. He really likes to be involved in the school newspaper, he has his own "THOUGHTS" in it and we can read what he is thinking about the American culture. He also likes to play soccer and basketball. He enjoys staying with his nice host-family and wants to stay in contact with them after he returns to Spain.

From Saks in New York, to Dior of Chicago, all the way to North Scott, The NS Fashion Gurus keep Eldridge a swanky town.

ACADEMIC

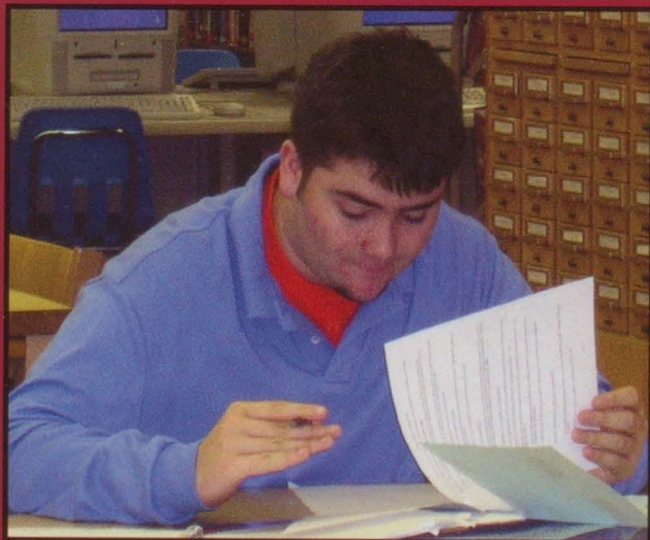

READERS DIGEST

Staff Note

North Scott's academic opportunities out of school show our student's different forms of real world activities that they will have to use after graduating from high school. Most of these activities are accessible only for seniors, however some are given for students sophomore through seniors, like yearbook. The activities for seniors include homebuilding, multi-occupation, and internship along with a few others. These activities help seniors prepare for life after high school in the working world. The different class offered help students realize what they like and if they want to do it the rest of their life.

What is Multi Occ

Multi Occ. is a class that our school offers for students to work during the school day. This gives the student a feel of what it is like in the real world. Multi Occ. is also a way for students to receive credits for graduation and a little bit more money to spend in their free time. This class is also a good way to work more than one job. You can work one job during the day and work your other job after school.

MD Class

Tyler Schlabach focuses on his homework, while working on the computer.

There are nine students down in rooms D5 & D9 that I would like to tell you about. These are the students in the Mental Disabilities classrooms (M.D students). What does that mean? It means that these students have difficulties and troubles figuring out things. It means they need to learn information in a different way than most people.

These students do work on subjects like other high school students. They do work on math, reading, grammar, and all the other subjects. The only difference is the material is presented in a way that these kids can understand. So really, there is not much difference between the M.D students and other North Scott High School students.

Drop by any time and get to know us. You're always welcome in our room!

SPORTS

SPORTS ILLUSTRATED

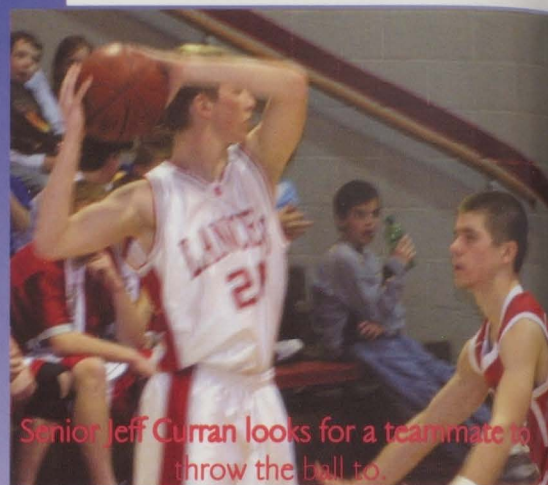

Editor's Note

After big wins and heartbreaking losses Lancer athletes fight until the end. This year was exciting in every sport for every reason. There were huge upsets- both ways- and amazing endings. Some teams made it to state, and others didn't, but no matter what every game was a fight. In almost every sport North Scott stood atop the MAC standings. Not only were strong teams built, so were strong friendships.

PUMP THE JAM

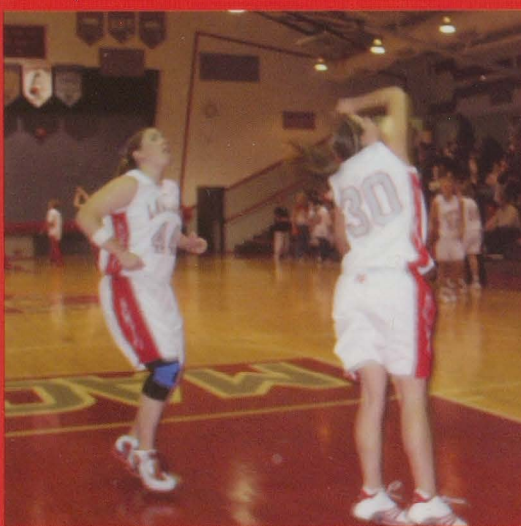

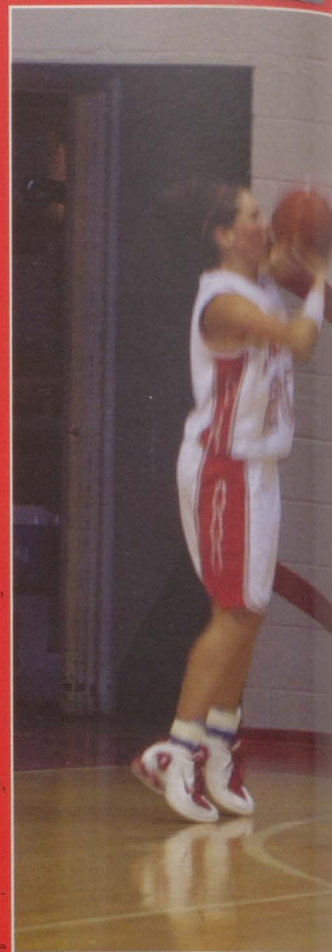

Our lady Lancers are demanding the attention of parents, students, and the community alike with their superior team efforts, the girls are prepared to take center court to prove their power. However, its taken a lot of practice, determination, and fun to get where they are today.

With team dinners every Thursday, team sleepovers, and plenty of energized practices it's no wonder this team is more of a family. The team's motto sums it all up: We are one. When the team members were asked for one word to describe their team the words together, crazy, unique, one, wild, and fun quickly leap to mind to describe this peppy, dedicated, hungry for another victory team. Throughout their seasons these girls have formed lasting memories that will never leave them. Favorite memories like Kristy Schroeder's whenever "Anna Engler and Katy Boll like to break it down on the bus for away games" or Brianna Wallace's favorite memory from "the bus when Steph was telling a long worthless story and Kristy was doing the same hand actions copying her for like ten minutes. Literally the whole ride home and I even took a picture and she still didn't notice." Mixed among other favorite memories of going to State, Anna's head injury, or Katy Boll running into chairs its clear that these girls one: can find humor in their teammates injuries and two: have formed strong bonds between them. With an equal

balance of goofing around and hard work these girls not only steal the games leaving the crowd cheering but they also have a deep love of this game.

Under the strong leadership of Brianna Wallace and Stephanie Leibold this team has not only learned the finer points of strong leaders but also the finer points to having fun. Considering when asked who was the craziest girl on the team Stephanie, a team Captain was overwhelming voted craziest with seven of the fifteen votes. Closely behind was Laura Bjurstrom with five out of fifteen votes for craziest team member. However, the fun needs to end somewhere, right? Not quite. When its time to get serious these girls buckle down, pop in their team song, turn up the volume, and "Pump the Jam." Singing and dancing to "Pump the Jam" is one of the strictest of their pre-game rituals and is performed before they take the court each game. With an 11-4 record the Pumping the Jams must be working.

Paige Nagle and Nicole Jones use their mad ups to get the rebound.

SILVER SHAKERS

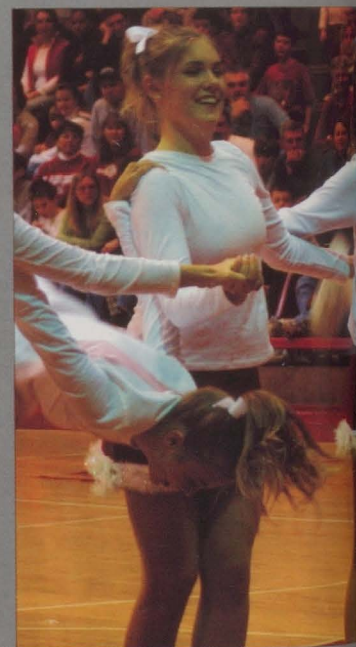

The Silver Shakers are a dance team that performs at the half times of the Lancer football and basketball games. They also perform each year at State this year they received fifth place for their jazz routine and a superior rating. Each Silver Shaker brings his own unique style and look to the team. The Shield staff thought it would be neat to see what it would be like to take bits and pieces of each girl and make The "Ultimate" Silver Shaker!

A high five goes out to Jill Noel for giving up her right hand. Like a true ballerina Dana Wulf gives up her right arm and left ankle. Abby Dickinson is without her left arm. Those golden blonde locks and tight tummy are compliments of Hanna Jallo. There is no way Carmen Drummond has a unibrow because the Ultimate Silver Shaker took her left eye brow and left shoe. Malia Nelson generously offered her face. While Meghan Kane gave up her starry eyes and pink shoe. Jenni Braden was all smiles till she unselfishly gave up her pearly whites! This Silver Shaker is quite equipped with Beth Niebuhr's chest. Kylie Thavenet shouldn't be left out in the cold because the Ultimate Silver Shaker has her yellow sweater. You might find Jaime Kimmel and Erin Daniels hobbling around school because they each only have one leg.

CLUBS

TV GUIDE

Editor's Note

Through the different clubs at North Scott, students are not only able to meet new people and make awesome friends, but they are able to help the community through different projects and have fun. Students take time out of their busy lives, and sometimes out of their busy school day, to help others around them. Many clubs are willing to do anything to help when they can. They work to prevent problems around the school and they work to help after disasters. Students come together to work, but then they also come together to hang out and have fun. Clubs are a great way to learn what you love doing-- you can try anything.

WRONG!!

Note: In the 1988 the National FFA Organization dropped FFA being short for Future Farmers of America. They felt that FFA could be and was for anyone wanting to learn about agriculture, so today FFA simply means FFA.

Valedictorians

"My parents instilled a hard work ethic in me ever since I was young. This work ethic from my parents and my own determination has allowed me to become valedictorian. I always had to do my best at everything because if I was going to take the time to do something, I might as well do it to the best of my ability."

-Michelle Schnack

"My parents have always been a large influence with regards to school-work. They encouraged me to always do my best, and I seem to have turned out alright. However, they never were very big on rewards, so you people who get money for grades, I have always been envious of you."

-Adam Bader

"Of course there is no formula for success except perhaps an unconditional acceptance of life and what it brings."

-A Rubinstein
Cori Thomson

Always bear in mind that your own resolution to succeed is more important than any one thing. -

Shakespeare

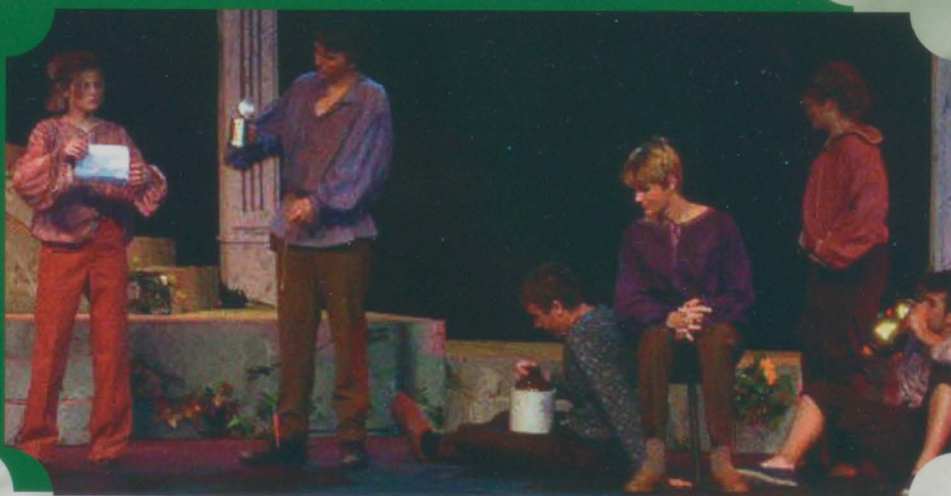

A Lancer Productions Festival for Kids

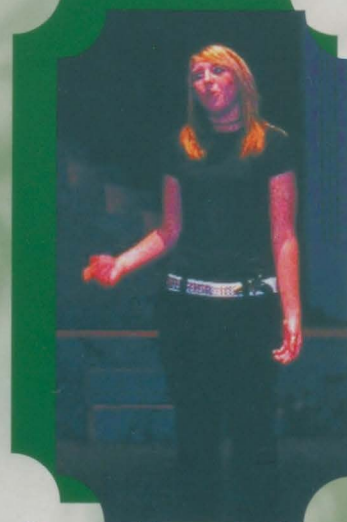

Tim Scheetz delivers an excellent performance in Shakespeare's Julius Caesar as the Narrator

Ms. Webb provides the North Scott Shakespeare Festival with a little hidden faculty talent

Katie Brennan, Cory Henkemeier, Paul Keppy, Khristie Carter, and Diego Garcia-Martin give A Midsummer Nights Dream a comic relief. Directed by former NS student Maggie Kelly this was a must see production.

Kara Underwood delivers a smashing monologue at the Shakespeare event

Jenny Schnider performs a monologue from MacBeth.

Look'n very perplexed, Paul Keppy and Mark Paar are seen in Julius Caesar

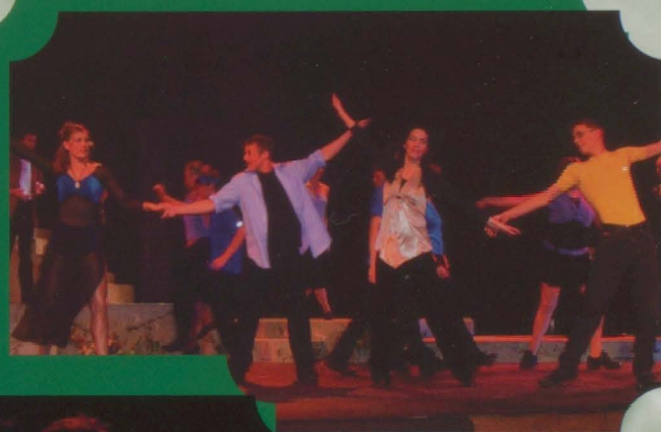

Bringing up the mood of Shakespeare, Nathan Meyer, Aaron Schroeder, and Daniel Coffman perform the reduced form Romeo and Juliet

Romeo and Juliet

Romeo and Juliet proved to be the crowning moment of the night. In a hip-hop meets ballet mood, this was a production unlike most North Scott has ever seen.

With the Capulets dressed in blue and The Montagues in gold, the audience is drawn in to the timeless love story and all of the passion the NS dancers brought to the scene

Daniel Coffman and Danna Wulf, as Romeo and Juliet, dance with beautiful grace to the original score written by Addie Campbell and Courtney Beadel

Eric Ridgeway and Dan Schaub battle it out in an impressive dual. This was one of the many exciting scenes in the modern version of Shakespeare's Hamlet.

Jarod Meyer plays a very convincing lord of the fairies in A Midsummer Night's Dream

Band Trip

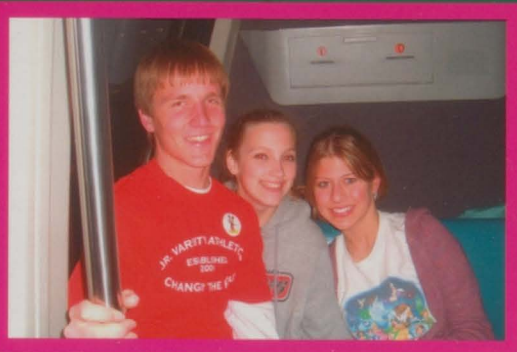

131 band students traveled 24 hours on a bus for a trip filled with music performances, fun and a lot of sun!
